

# Distribution Diagram of Steel Makers (Electric Furnace & Blast Furnace) and Pellet

\* The research conducted by Japan Steel Can Recycling Association (As of July 2013)

**Total in Japan 80 Steel Works**

- Blast furnace steel works ... 16
- Electric furnace steel works ... 54
- Foundries etc. .... 6
- Pellet works ..... 4
- Manufacturing plant of sheet steel from cans ..... 6

■ Steel cans are recycled in most of these steel works and foundries.  
■ Recycled products are produced in nearest plant in each region to recycle efficiently.

At 6 works (included number of 80 works), steel sheets for cans are produced to make steel cans.
